About WIN

World Interactive Network, Inc. (WIN learning) helps middle, high school, and adults develop foundational skills for career and college readiness.

Since 1996, WIN has become the leading provider of career readiness solutions to help districts prepare pathways for students' futures, whether they are college, trade school, military, or workplace bound. To date, more than 10 million students worldwide have participated in the specialized career-driven courseware and education intervention initiatives as well as career-readiness certification programs.

WIN Career Readiness and College Readiness

Employer studies have shown a lack of skilled workers is a key factor in hiring difficulties. Whether it is entering the workplace or post-secondary education, it is important to have the skills necessary to be successful.

Through self-paced, web-based course modules, Career Readiness Courseware and College Readiness Courseware (CRC) participants will find the tools necessary to prepare for college and the workplace.

How does the courseware work?

Students complete the Initial Skills Review or Pre-test to determine their current skill level. Once entered into their correct learning level, students progress at their own pace. Post-tests at the conclusion of each skill module and certificates of completion tell students they have succeeded in mastering the material.

WIN Courseware Standards

- 24/7 web-based access
- Aligned to Common Core State Standards and Local State Objectives
- Available in English or Spanish
- Aligns with McRel for GED, COMPASS, TABE 9 & 10, ASVAB, CASAS, AEFL, McGraw Hill, and WorkKeys
- Addresses core skills required for entry into all 16 Career Clusters identified by the U.S. Department of Labor
- All lessons support the U.S. Department of Labor Workforce Development Performance Measures and the U.S. Department of Education Standards

Benefits of WIN Courseware

- ✓ Learn and master key workplace skills
- ✓ Helps prepare for WorkKeys Assessments and foundational college skills
- ✓ Pre-tests and Post-tests help you determine your current skill level and mastery of skills

NC Career Readiness Certification

With preparation from the WIN Career Readiness Courseware, students can go on to take the North Carolina Career Readiness Certification.

The Career Readiness Certification is a portable certification based on WorkKeys assessments that shows prospective employers you possess the basic skills in ***Applied Mathematics, Reading for Information, and Locating Information.***

Contact your local Community College for information on obtaining the CRC
